

Clear Creek Organics Attends the 2010 Canadian Health Food Association Trade Show.

Gene and Pat Kessler, of Clear Creek Organics, attended the CHFA Trade Show Oct 23 and 24, 2010 in Toronto. This show draws stores, consumers and distributors from all of Canada but in particular central Canada. Nearly 3000 visitors viewed over 500 exhibits, including CCO.

Ida Yan, Pat and Gene served organic cheese smokies and organic beef sticks to the many visitors. Tremendous reviews on our demo products were received with a number of orders placed at the show. This was an excellent opportunity to show case the nine products CCO currently produces.

CCO continues to promote and market their products that are produced without Nitrites, MSG, gluten or any animal by-products. Plans are to attend the CHFA Trade show West in Vancouver in the spring of 2011.
