

The Hodgins - EJM ORGANIC FARM

Our 1120 acre farm is nestled in the Arrow Hills near Lenore, Manitoba. Our mixed farm consists of cattle, hogs, grain, hay and pastures. We are in our 13th year of organic production with all of our land and livestock certified organic. Our farm is certified by an annual inspection through OPAM (Organic Producer's Association of Manitoba). We are also certified with the Winnipeg Humane Society. On our second generation family farm we take pride in raising our livestock in a healthy, spacious environment on feed from our own organic fields and pastures. This results in the finest tasting and most tender cuts of beef and pork you will find. We use holistic management and homoeopathic practices to care for our animals. No antibiotics chemicals, growth hormones, GMO or animal by products are used on our farm. We raise all of our own livestock.
